

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

§ Includes payments in respect of the principal and interest of Suez Canal Exchequer Bonds, and interest of Cape Railway Exchequer Bonds. From 1887-88 inclusive the interest on local loans is carried to the Local Loans Fund instead of to the Exchequer, under the provisions of the National Debt and Local Loans Act, 1887.

NOTE.—The Grants in Aid of Local Taxation formerly paid to the Local Authorities in England and Wales (£650,000.) and Scotland (300,000.), and which formed part of the Imperial Expenditure, were discontinued in 1889-90 and 1890-91 respectively, and the receipts from certain Excise Licences were paid over to the English and Scottish Local Authorities in lieu of the Grants (see Table 11, p. 29).

NOTE.—It is to be borne in mind that the figures in this Table No. 7 represent the actual net receipts derived from the Customs, Excise, and Stamp Duties, as ascertained after the Revenue accounts have been finally rendered. They therefore do not, and cannot, correspond exactly with the figures given in Tables Nos. 2 and 4, which represent the payments made into the Exchequer, or "Exchequer Receipts," on account of these duties in each year.

‡ In addition to the loss by repeal of the Malt duty, Drawback was allowed on Stocks in hand on 30th September, 1880. This was estimated in the Budget at 950,000*l.*, but amounted to 1,329,017*l.*

§ Estimated result after an interval of several years.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* Amounts not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

‡ The amount mentioned in the Budget was 25,000l., but that referred to the total repeal of the Licence which was not carried out.

§ Grants made from the Exchequer to Local Authorities in England amounting to about 2,850,000l. were at the same time discontinued.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* New assessments under Schedules A and B came into force for the Metropolis in 1881-82, 1886-87, and in 1891-92, and for the rest of the United Kingdom in 1879-80, 1882-83, 1885-86, and 1888-89.

† The apparent increase in this amount as compared with that of the previous year arises from the duty being charged at 4*ths* of the rate in force, in lieu of the Parliamentary deduction of 4*th* being made from the gross rental of tithe free lands in England before being charged to duty. Allowing for this there is an actual decrease of about 1,629,502*l*. in the net value of lands in England for 1882-83.

* A great change was made in the death duties in 1881-2, and from that date Property assessed to Probate Duty constitutes the true record of personality changing hands by death.
 † In these two years the capital was abnormal in amount, the operation of the Land Act of 1881 and the fixing of Judicial Rents having led to delay in recovering duty due for former periods.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1889-90, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for previous years have been corrected as far as possible, and now show, as nearly as the accounts will allow, the receipts from Rates. Repayments to local authorities on account of private improvement works executed by them, and previously included as rates, have also been excluded.

* Partly estimated.

Note.—This Return includes Channel Islands vessels, and, up to 1891, Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom. In 1892 all Foreign-going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.
